User Manual

1. Install the latest version of i-Judge software on your Windows based computers or tablets.
2. Connect your SWA Scoring Manager computer to a network.
3. Connect your i-Judge consoles to the network. One i-Judge console for each official.
4. Open an event for scoring in SWA Scoring Manager.
5. From the i-Judge menu, choose **Connections Activity**.

6. From the Console Connections/Activity window, make a note of the IP Address.
7. Connect Consoles. You will see that ISS MMS is connected right away. This is the SWA Scoring Manager.
Troubleshooting: If Connect Consoles fails, try another network. Something is blocking the TCP Port 8963.
8. From each console, run the i-Judge program.
9. Choose the IP address that corresponds to the SWA Scoring Manager computer.

*Note: If you are just testing, you can run i-Judge on the same computer as SWA Scoring Manager. To connect, choose **This Computer**.*

10. Select the judge assignment for the i-judge console.
11. Press Connect.
12. From the scoring window, click on any routine. The information will display on all i-Judge consoles.
13. Enter the score(s) for the routine from the i-Judge console.
14. Press **Send** followed by the **Accept / Send** buttons.
15. When all scores are received, press OK(enter) from Scoring to accept the scores.

Additional Information:

- If a console gets disconnected from the network, it will automatically try to reconnect when a score is sent.
- The Connections/Activity window shows the status of all consoles including their power meter.
- You can disconnect an i-Judge from the Connections/Activity window.
- The i-Judge console displays the power meter at the top right.

Troubleshooting

- If you do not see the SWA Scoring Manager IP address, ping the computer then refresh the IP list. It is good practice to have a fixed IP address on the scoring computer and a batch file that executes automatically to ping the scoring computer.

i-Judge is a product of Integrated Sports Systems (ISS) Inc. and has been designed to work with the SWA Scoring Manager by Swiss Timing Ltd.
